By using the Service, Users accept that the Provider may use the data uploaded by Users during their use of the Service within the framework of the applicable Privacy Policy.

3. Conclusion of an agreement between the Parties

Issues not regulated in the present GTC and the interpretation of this GTC shall be governed by Hungarian law, in particular with regard to the relevant provisions of Act V of 2013 on the Civil Code (hereinafter: Civil Code) and Act CVIII of 2001 on certain issues of electronic commerce services and information society services (hereinafter: Act on electronic commerce), and Government Decree 45/2014 (II. 26.) on the detailed rules of contracts between consumers and businesses. The Parties shall be bound by the mandatory provisions of the applicable law without any special clause.

The present GTC shall apply to all electronic commercial services provided through the en.nosiboo.eu Website and/or the shop.nosiboo.eu Webshop. The Webshop distributes the product family of Nosiboo nasal aspirators and accessory products. Orders may exclusively be placed online, through the Webshop; ordering is not possible by phone or in person. Users can purchase in the Webshop by placing orders electronically, as established in this GTC.

The Provider accepts Users' orders (quotes) by way of separate acceptance e-mails in which Customers are informed, among others, on the conclusion of an agreement and in a separate e-mail on the shipment of the package and the possibility of parcel tracking. Following the placement of an order, the agreement may be modified or cancelled freely, without any consequences until order fulfilment. This may be done by way of an e-mail.

The agreement concluded in Hungarian between the Parties upon the purchase of goods (individual agreement, order) qualifies as a written agreement; however, it is recorded and stored exclusively in an electronic form. The Provider does not store agreements in hardcopy. The Provider shall preserve electronic files related to the conclusion of an agreement for 10 (ten) years following the generation thereof or the fulfilment of the agreement.

The User may verify, modify, or delete their order any time while placing products in their shopping cart. Possible languages of agreements: Hungarian. Applicable law shall be the Hungarian law. The Provider shall not submit to any code of conduct.

The present GTC shall enter into force on 20 April 2023 and shall remain in force until revoked. The Provider is entitled to unilaterally amend the GTC. Any modification shall be published by the Provider on the Webshop described in the introduction 15 (fifteen) days before they enter into force. By using this Webshop, Consumers agree that they are automatically bound by all of the rules that apply to the use thereof.

The Consumer, by accessing the Webshop operated by the Provider or by reading its content in any way, even if they are not registered users of the given Webshop, acknowledges that they are bound by the GTC. If the Consumer does not accept the GTC, they are not entitled to view the content of the Webshop. The Provider reserves all rights to the Webshop, any part thereof and the content displayed thereon, as well as the distribution of the Webshop. It is not allowed to download, electronically store, process, or sell the content of the Webshop or any part thereof without the written consent of the Provider.

4. Range of products and services available for purchase

The products displayed on the Webshop can only be ordered online. The prices shown for the products are in HUF, they include VAT as required by law, but do not include the cost of delivery. No extra packaging costs are charged. In the Webshop, the Provider shall display the name and description of the product in detail and shall display a photo of the product. The images shown in the product pages may differ from the real products and may be for illustration purposes only. We cannot be held responsible for any discrepancy between the image and the actual appearance of the product displayed in the webshops.

If a promotional price is introduced, the Provider shall fully inform the Consumers about the promotion and its exact duration.

If the Provider, despite all due care and diligence, displays an incorrect price on the Webshop interface, in particular with regard to the obviously incorrect price, for example "0" (zero) € or "1" (one) €, the Provider is not obliged to deliver the product at the incorrect price, but may offer to deliver the product at the correct price, in the knowledge of which the Consumer may withdraw from the purchase.

In the case of incorrect prices, there is a striking discrepancy between the true price of the product and the advertised price, which the average consumer should be able to detect immediately. According to Act V of 2013 on the Civil Code, a contract is formed by the mutual and unanimous expression of the will of the Parties. If the Parties cannot agree on the terms of the contract, i.e. if there is no mutual and unanimous declaration of the Parties' will, then there is no valid contract, which would give rise to rights and obligations. On this basis, an order confirmed at a wrong/incorrect price will be considered a void contract.

5. Purchasing/registration

By purchasing a product on the Webshop and/or registering at the Webshop, the Consumer declares that they have read and accepted the present General terms and conditions and the Privacy Policy published on the Website/Webshop, and consents to the processing of data.

The Consumer is obliged to provide their real data during the purchase/registration. In case of false data or data that can be linked to another person provided during the purchase/registration, the resulting electronic contract is null and void. The Provider excludes its liability if the Consumer uses its services on behalf of another person, using the data of another person.

The Provider shall not be liable for any delivery delays or other problems or errors caused by incorrectly and/or inaccurately provided data. The Provider shall not be liable for any damages resulting from the fact that the Consumer forgets their password or it becomes available to unauthorized persons for any reason not attributable to the Provider.

6. Placing an order

Important properties and characteristics of the goods to be purchased and instructions of the use of goods can be consulted at the informational pages of the specific articles. Furthermore, information regarding the use of goods and the detailed properties thereof are included in user manuals which can be downloaded from en.nosiboo.eu (Help – Downloads). The Provider shall be considered to have fulfilled its contractual obligations if a product has more favourable, advantageous properties than advertised at the Website/Webshop or in the user manual. The Provider shall include user manuals of products distributed thereby together with products where required by law.

The purchase price indicated at the Webshop is always the amount appearing in Hungarian Forints (Ft, HUF) or in Euros (EUR), depending on choice, next to the product selected, and includes value added tax unless indicated otherwise. Purchase prices of products do not include delivery costs.

The Provider reserves the right to change the prices of products available for order at the Webshop and such changes shall become effective at the same time as they appear at the Webshop. Such changes shall not affect unfavourably the purchase price of products already ordered.

When initiating a payment by online credit card, we are not able to refund money if there is a price decrease between the time the electronic payment notification is sent and the time the product is delivered. The bank's security verification of online payment transactions requires at most 24 (twenty-four) hours; therefore, products may be obtained after this period only.

The Provider shall only accept an order through its Webshop if the User has fully completed all fields required for the order. The Provider may not be held liable for delayed delivery or

other issues/problems due to ordering data provided incorrectly and/or inaccurately by Users. Certain pictures displayed are for illustration only and the Provider may not be held liable for any deviations from these.

The Provider shall publish calls for proposal for the products distributed by it in the Webshop. By ordering a product, Users make offers which the Provider accepts by confirming such orders. Orders are automatically stored by the Webshop in an electronic format and following the registration at the Webshop the purchaser may view their orders later on.

Orders may be placed using the shopping cart ("Cart") at the Products page. Users may place products selected by them in their cart by using the "Add to Cart" link at pages containing detailed product data and displayed when the User clicks a product.

The content of the Cart may be modified on the product page or in the Cart, after clicking the Add to Cart link as well: Users may return to the Products page any time by using the "Continue shopping" link and set the amount of each product as desired or modify, delete the content of the Cart. If the User has finalised the contents of the cart, after clicking on the links "Go to checkout", "Go to shipping methods", "Go to payment methods" and "Go to payment summary", they can check the order details in the "Order summary" interface before placing the order, they can modify the billing and delivery address, check the delivery cost and select the payment method. After clicking the "Back to cart" link at the Delivery and invoice data page, Users may modify the content of their Cart and other data again as desired.

The order shall be placed, and the offer shall be sent after Users click the "Order" link at the Order summary page, at either CIB bank's or Paypal's interface as selected; furthermore, in case of a delivery address within Hungary and paying in Hungarian Forints, cash on delivery is also possible.

The Provider shall confirm purchases to Users electronically (in e-mail) within 48 (forty-eight) hours following receipt of Users' purchase offers (orders). However, such confirmation shall not be considered an acceptance of Users' offers. In case such confirmation is not received by Users within 48 (forty-eight) hours following the sending of an offer, the Provider shall contact the User via e-mail and inform the User on the cause of the lack of a confirmation (such as temporarily out of stock, technical issue).

In the case of prepaid orders, the Provider can only fulfil the order if a successful CIB credit card or Paypal payment is made. In the absence thereof, the order will be cancelled within 1-2 working days, of which the customer will be informed via e-mail.

Upon Users' written requests based on such information, the Provider shall transfer back the previously transferred amount of the purchase price and delivery costs to such Users within five (5) workdays. Upon purchase of a product, in case of cash on delivery, on receipt of the gross amount of the cash on delivery, electronic invoices fully compliant with the conditions set forth by legal provisions shall be issued and delivered to the User in the confirmation e-mail.

The Webshop system handles each finalised order as a separate order and, therefore, orders placed directly after each other for the same User and to the same address shall be delivered in separate packages and delivery costs shall be charged separately for each order. In case a User has placed their order but wishes to extend the package by another product, such User may request the orders to be combined in a mail written to the Customer Service. The Provider shall only comply with such request if the status of order(s) enables it and such request to modify the order has been received by the Provider in writing prior to handing over the package to the courier service.

Delivery costs of orders shall be borne by Users and such costs shall be indicated on invoices. If a User places several orders on the same day, these are taken into account separately in terms of delivery costs. The Provider reserves the right to change delivery charges and such changes shall become effective at the same time as they appear at the Webshop. Such changes shall not affect the purchase price of products ordered.

The Provider shall perform the services ordered at the Website at the place (delivery address) indicated in the order confirmation sent to the User in e-mail. In case of delivery to a delivery address, the Provider shall use the services of GLS General Logistics System Hungary Kft. ("GLS").

Packages shall be delivered on workdays between 8 a.m. and 5 p.m.. In case a User is not at home during this period, it is recommended to provide their workplace (or other available) address as delivery address. Contact by phone significantly helps couriers find addresses so it is recommended to provide a mobile phone number during registration. If the purchase is **not** made by cash on delivery, but through Paypal or the CIB bank interface, the value of the order and delivery will be settled in advance. Therefore, in this case, do not pass on either the purchase price or the delivery cost to the courier.

Users shall visually inspect packages in the course of acceptance while the courier is present, and record any detected damages of packages in a protocol. After taking a protocol, Users may choose to return externally damaged packages or accept them, which is to be recorded in the protocol. Packages may only be unpacked following acceptance, or, in case of packages paid by cash on delivery, after paying the full amount of cash on delivery. Accepted packages shall at all times be left by couriers at the delivery address and not returned. If a product in an accepted package is damaged, it shall be recorded in a protocol by the courier. No complaints made later on and without a protocol shall be accepted.

GLS courier service shall attempt delivery several times. In case delivery attempts fail several times, packages are automatically returned to the Provider's warehouse. If a User refuses to accept a package, no further delivery attempts shall be made and such package is automatically returned to the Provider's warehouse. Costs of failed deliveries shall be fully borne by Users, including the fee of deliveries and returns to the Provider's warehouse. In case of a failed delivery, the Provider shall contact the User at the e-mail address provided during registration in order to arrange further actions.

Products may only be delivered again if supplemental and repeated delivery costs are transferred in advance. In case the User does not request a further delivery or cannot be contacted within thirty (30) calendar days, the Provider shall return to the User the amount transferred in advance by the User (the amount of product price and delivery costs) minus delivery costs incurred.

Products may be ordered exclusively by home delivery and are not available in person.

Users may make payments securely at that system's payment interface by logging in their account. Customers who choose cash on delivery must pay the courier the purchase price of the product and the cost of delivery at the place of delivery, in cash or by credit card.

In the event of errors or omissions in the products or prices in the Webshops, the Provider reserves the right to correct them. In such a case, the Provider will inform the Consumer of the new data immediately after the error has been detected or modified. The Consumer may then confirm the order once more or withdraw from the contract.

The total amount payable includes all costs based on the order summary and confirmation letter. The invoice (and the warranty card, if there is one belonging to the product) is included in the package. The Consumer shall inspect the parcel in front of the courier upon delivery, and in case of any damage to the product or the packaging, the Consumer shall request a report to be taken, and in case of damage, the Consumer is not obliged to accept the parcel. The Provider does not accept any subsequent complaints without a record.

After providing the required data, the Consumer can click on the "Order" button to send their order, but before that they can check the data provided once again, send a comment with

If the Consumer wishes to delete the products in the Cart, they can click on the “Delete” button. During the ordering process, the Consumer will always have the possibility to correct/delete the data entered.)

In all cases, the Provider will confirm the successful purchase electronically. General delivery time, within 2-4 (two to four) working days from confirmation. The User will be informed of the expected delivery date by the external party carrying out the delivery.

On the basis of the contract, the Provider is obliged to transfer the ownership of the goods, and the Consumer is obliged to pay the purchase price and take delivery of the goods. If the Provider and/or the selling company undertakes to deliver the product to the User, the responsibility for any damage to the product shall pass to the Consumer when they or a third party designated by them takes possession of the product. The risk passes to the Consumer when the goods are handed over to the carrier, if the carrier has been contracted by the Consumer, provided that the carrier has not been recommended by the seller.

Unless otherwise agreed by the seller company and the Consumer, the Parties, the Provider is obliged to make the goods available to the Consumer without delay after the conclusion of the contract, but within 30 (thirty) days at the latest.

In the event of a delay on the part of the Provider, the Consumer is entitled to set a second deadline. If the Consumer does not perform until the second deadline, the Consumer has the right to withdraw from the contract. The Consumer may withdraw from the contract without setting a second deadline if

- a) the Provider refuses to perform the contract, or
- b) the contract should have been performed for the recognisable purpose of the service at the time agreed by the Parties, and not at any other time.

If the Provider fails to fulfil its contractual obligation because the product specified in the contract is not available, it shall immediately inform the Consumer thereof and immediately refund the amount paid by the Consumer.

If the Consumer wishes to exercise their right of withdrawal, it may be done in writing by downloading the Statement of withdrawal available at the Website/Webshop (via the Contact or Support pages of the Website/Webshop operated by the Provider, or via the Information and Complaint Form), by telephone, or in person at one of the Provider's contact details. If the notification is made in writing by post, we will take into account the date of posting, and if the notification is made by telephone, we will take into account the date of the telephone call. In the case of notifications by post, the notification is only accepted by the Provider as registered mail or parcel. The Consumer can return the ordered product to the Provider by post or courier service.

The Consumer is liable only for depreciation resulting from use beyond the one necessary for determining the nature, characteristics and functioning of the product.

The Government Decree 45/2014 (II.26.) on the detailed rules of contracts between consumers and businesses is available [here](#). Directive 2011/83/EU of the European Parliament and of the Council is available [here](#).

Consumers may also contact the Provider with any other complaints using the contact details in the present notification. The right of withdrawal applies only to users who are consumers within the meaning of the Civil Code. The right of withdrawal does not apply to a business, i.e. a person acting in the course of their profession, self-employment, or business activity.

10. Procedure for exercising the right of withdrawal

If the Consumer wishes to exercise the right of withdrawal, they shall indicate their intention to withdraw by contacting the Provider. The Statement of withdrawal sample is available at the en.nosiboo.eu/downloads site. The Consumer exercises their right of withdrawal in time if they send their withdrawal notice before the expiry of the 14th (fourteenth) day after receiving the product. In case of a written withdrawal, it is sufficient to send only the withdrawal notice within 14 (fourteen) days. In case of notification by post, the date of posting will be taken into account; in the case of notification by e-mail or fax, the date of sending the e-mail or fax will be taken into account.

In the event of withdrawal, the Consumer is obliged to return the ordered product to the address of the Provider without delay, but no later than 14 (fourteen) days from the date of notification of withdrawal. The deadline is deemed to be met if you send the product before the expiration of the 14 (fourteen) day deadline (i.e. it does not have to arrive within 14 (fourteen) days). The Consumer bears the costs incurred in returning the product as a result of exercising the right of withdrawal. However, the Provider is not obliged to reimburse the Consumer for the additional costs resulting from the choice of a mode of transport other than the cheapest usual mode of transport offered by the Provider.

The Consumer may also exercise their right of withdrawal between the date of conclusion of the contract and the date of receiving the product.

In the case of a sale of several products, if each product is delivered at a different time, the Consumer may exercise the right of withdrawal within 14 (fourteen) days of receiving the last product delivered or, in the case of a product consisting of several components or items, the last component or item delivered.

In the course of their intended use, the Nosiboo device and the nose tip (component) of the Colibri/Penguin head are inserted in human body openings (the nasal cavity) and contact the mycoderm. In case the packaging is opened, products may contact mycoderm while tried, which means a potential risk of contamination, and therefore, returned products are not suitable for their intended use any longer. Pursuant to Government Decree 45/2014 (II.26.), Users are only entitled to cancel orders of these products if they have not opened the packaging. The right of cancellation shall only be valid for products returned in unopened packaging.

11. Warranty, guarantee

Due to hygienic reasons, we do not replace the device if the packaging has been opened. Nosiboo Pro, Nosiboo Pro2, Nosiboo Go, and Nosiboo Eco are hygienic medical devices. You may exercise your right of withdrawal only if the device and the protective foil of the Colibri/Penguin head are intact.

Service warranty

The Provider shall be held liable for faulty fulfilment (service warranty).

In case of faulty fulfilment, Users may primarily claim repair or replacement at their option unless fulfilment of the warranty claim chosen is impossible or it would result in disproportionate extra costs to the Provider compared to another warranty claim, taking into account the value of the goods in question in its faultless state, the severity of the violation and the inconvenience caused by the fulfilment of the warranty right to the entitled party.

In case a User is not entitled to repair or replacement, or the Provider has not accepted to repair or replace the product in question or may not fulfil this obligation under the conditions set forth above, the User may claim an appropriate price discount or cancel the agreement at their option. No cancellation is possible due to insignificant faults.

After detecting a fault, Users shall notify the Provider on their objection within the shortest deadline possible under the circumstances. In case of a consumer agreement, objections communicated within two months following detection of a fault shall be deemed as communicated in due time. All costs related to the fulfilment of the warranty obligation and the restitution of a contractual state – including, in particular, costs of materials, labour and transport – shall be borne by the Provider. For orders not considered consumer agreements, the entitled party may, pursuant to the Civil Code, validate their warranty rights for a period of 6 (six) months following the date of fulfilment; however, such period of expiry shall be 2 (two) years for consumer agreements.

Product warranty

In the event of a defect in a movable good (product), the Consumer may, at their option, assert either the service warranty or the product warranty rights. As a product warranty claim, the Consumer may only ask for the defective product to be repaired or replaced.

A product is considered defective in case it does not meet the existing quality requirements when it is placed on the market, or if it does not have the characteristics described by the manufacturer. The product warranty claim may be asserted by the Consumer within 2 (two) years from the day the manufacturer places the product on the market. After the expiration of this deadline, such right thereof is lost.

The product warranty claim may be asserted exclusively against the manufacturer or distributor of the moveable product. The defect of the product shall be proven by the Consumer in case of asserting product warranty claims.

The Provider may only be released from the obligation of a product warranty claim, in case it can prove that:

- the product was manufactured or distributed outside the scope of business activities thereof, or
- the state of scientific and technical knowledge at the time when the product was put into circulation was not such as to enable the existence of the defect to be discovered, or
- the defect in the product results from the application of a legal or regulatory requirement.

The Provider only needs to prove one of the above reasons for exemption. The Provider draws the Consumer's attention to the fact that they may not assert a service warranty claim and a product warranty claim for the same defect at the same time. In case of the successful assertion of a product warranty claim, the service warranty claim for the replaced product or the repaired part may be asserted against the manufacturer.

Guarantee

The Provider is bound by a warranty obligation for Nosiboo products sold in the Webshop and considered consumer durables as per Governmental Decree No. 151/2003, which means that the Provider shall only be exempted from liability during the warranty period if the Provider proves that the fault in question is due to inappropriate use of the product. The warranty period (duration of warranty) shall commence upon actual fulfilment, that is, delivery of the product to the User or commissioning of the product. The obligatory warranty period for Nosiboo Pro/Pro2 and Go devices shall be one (1) year. Nosiboo Colibri/Penguin heads, Nosiboo Eco, and nose tip are not subject to Governmental Decree No. 151/2003 (IX.22.) on Consumer Durables but the Provider assumes voluntary warranty for this product for three (3) months.

Users may only validate their warranty rights if they present or hand over the warranty ticket to be downloaded from the website (en.nosiboo.eu/downloads), and the invoice justifying payment. Users are required to justify the fact of purchase beyond any doubt. The scope of rights related to warranty applicable to individual products shall be governed by the description in the warranty ticket.

During the warranty period, the Provider shall assume replacement or repair of faulty products at Users' option as set forth in the warranty card.

In case of a product fault, Users may obtain information on how to proceed at the address, e-mail address, and phone number indicated in the downloadable Warranty card.

Costs of transporting warranty products to the service points shall be borne by the Provider. Faulty products may be sent directly to the Webshop's service point at the following address as well:

Attract Kft., Hungary, 7622 Pécs, Siklósi út 1/1.

E-mail: customerservice@nosiboo.com

Phone: +36 72 551 642

The service point shall not accept packages sent by COD but return such packages to the sender in every case.

If a User validates their claim to replace a faulty product within 3 (three) workdays following receipt of such product, the Provider shall replace such product, provided that such fault prevents its intended use.

Warranty obligation shall not apply to faults occurring after fulfilment. It is the Provider's responsibility to prove this. The warranty does not affect Users' statutory warranty rights. Users may obtain information on the place of repair at warranty tickets or from the Provider's Customer Service.

The Provider draws the Consumer's attention to the fact that they may not assert a service warranty claim and a guarantee claim or a product warranty claim and a guarantee claim for the same defect at the same time. Otherwise, however, the Consumer's rights under the guarantee are independent of the rights described in the service and product warranty chapters. The Provider is not liable for damages resulting from natural wear and tear/obsolescence beyond the guarantee period (professional life expectancy).

Furthermore, the Provider is not liable for damages resulting from faulty or negligent handling, excessive use or other than the specified use, or other improper use of the products after the risk of damage has passed to the Consumer.

12. Copyright

The entirety of the Website/Webshop, its graphical elements, text and technical solutions, as well as elements of the Service are protected by copyright or trade law (in particular, trademarks). The Provider is the sole copyright owner or authorised user of all contents displayed at the Website/Webshop and in the course of the provision of the services available through the Website/Webshop, that is, all authored work and other intellectual creation (including, without limitation, all graphical and other materials, arrangement and edition of the Website's/Webshop's interface, software and other solutions used, concepts and implementation).

Saving the contents or certain parts of the Website/Webshop on physical or other media or printing the same is allowed for private purposes or upon the Provider's prior written consent.

Any use beyond private use – such as storage in a database, redistribution, publication or making downloadable, commercial distribution – is only allowed upon the Provider's prior written consent.

Aside from the rights expressly set forth herein, the use of the Website/Webshop or any provision thereof shall not entitle Users to use or utilise any commercial name or trademark at the Website/Webshop for any purpose whatsoever. These intellectual works may not be used or utilised in any other form without the Provider's or the right owner's prior written consent except for displaying the Website/Webshop in the course of its intended use and temporary copying required for this, as well as making copies for private purposes.

13. Responsibility

Users purchasing at the Webshop are supposed to know and accept the possibilities and limitations of the internet, with special regard to technical performance and potential errors.

The Webshop shall by no means be held liable for the following, regardless of the cause thereof:

- the non-arrival of any data sent and/or received through the internet, or random modification thereof;
- any operational disturbance in the internet network that prevents problem-free operation of the Webshop and purchases;
- any failure in any receiving device along communication lines;
- loss of any letter not sent recommended or with a return receipt – regardless of whether it is sent in hardcopy or electronically – and, in particular, the loss of any data;
- inappropriate operation of any software;
- consequences of any program failure, extraordinary event or technical failure.

Users shall be held liable fully and without limitations for damages due to the provision of another person's personal data and publication of the same in the Webshop. In this case, the Provider shall provide all assistance to proceeding authorities in order to determine the identity of such violating person.

14. eDM (electronic direct marketing message)

Upon request of Users, the Webshop shall provide information on its periodical events by sending e-mails to their e-mail addresses provided when subscribing in the form of eDM (electronic direct marketing messages).

By subscribing to eDM messages, Users using the eDM service grant their preliminary, voluntary and express consent to receiving electronic messages containing information

related to the Webshop's products at their e-mail address and the management by the Webshop of their e-mail addresses provided during registration for the purposes of such messages. Users may revoke the use of the eDM service and their consent to the management of their personal data for this purpose related to sending informational materials any time by way of unsubscribing.

15. Complaints handling procedure

The Provider operates a customer service for the purpose of handling customer comments, requests, and complaints.

Contact details of the customer service: ATTRACT Kft. (Hungary, 7622 Pécs, Siklósi út 1/1, e-mail: customerservice@nosiboo.com, telephone number: +36 72 551 642)

The Provider will investigate the oral complaint immediately and remedy it as necessary. If the Consumer does not agree with the handling of the complaint or if it is not possible to investigate the complaint immediately, the Provider shall immediately take a record of the complaint and its position and shall provide a copy to the Consumer. The Provider will reply to the written complaint in writing within 30 (thirty) days. The Provider shall state the reasons for its rejection of the complaint. The Provider shall keep a record of the complaint and a copy of the reply for 5 (five) years and shall present it to the supervisory authorities upon request.

You are also informed that, if your complaint is rejected, you can take your complaint to a public authority or a conciliation body, as follows:

The conciliation body is responsible for settling consumer disputes out of court. The conciliation body's task is to try to reach an agreement between the parties to settle the consumer dispute. If this fails, the conciliation body decides on the case in order to ensure that consumer rights are enforced in a simple, quick, efficient, and affordable way. The conciliation body shall, at the request of the Consumer or the Provider, give advice on the rights and obligations of the Consumer.

In the case of cross-border Consumer disputes related to online sales or online service contracts, only the conciliation body connected to the Budapest Chamber of Commerce and Industry is competent to handle the procedure.

Consumers can use the EU online dispute resolution platform if they have a complaint. Using the platform requires a simple registration at the system of the European Commission; the registration can be done by clicking [here](#). After logging in, the Consumer can submit a complaint via the online website at the following address:

<https://ec.europa.eu/consumers/odr/main/?event=main.home2.show>

The Provider has a duty to cooperate in the conciliation procedure, by sending its reply to the conciliation body and by ensuring the participation of a person authorised to negotiate a settlement at the hearing. If the head office or place of business is not registered in the county of the chamber of the competent conciliation body, the obligation of cooperation of the business shall include offering the possibility of a written settlement in accordance with the Consumer's request.

If the Consumer does not turn to a conciliation body, or if the procedure is not successful, the Consumer has the right to **go to court** to settle the dispute.

The action must be brought by means of a statement of claim containing the following information:

- the competent court,
- the names of the parties and their representatives, their place of residence and their status in the proceedings,
- the right sought to be asserted, stating the facts and the evidence on which it is based,
- the data from which the jurisdiction and competence of the court may be derived,
- a request for a definitive ruling from the court.

The application must be accompanied by the document or a copy of the document the contents of which are relied on as evidence. The Pécs District Court or the Pécs Regional Court, depending on its jurisdiction, shall have exclusive jurisdiction.

At the same time, the Provider and the Consumer agree to try to settle their disputes primarily by amicable means.

16. Data protection

The Privacy Policy of the Website/Webshop operated by the Provider is available on the following pages: <https://en.nosiboo.eu/privacy-policy/> and <https://shop.nosiboo.eu/adatvedelmi-nyilatkozat-44>

The Privacy Policy is an integral part of the present GTC and its acceptance is an essential condition of the Consumer's order.

17. Final provisions

The Provider may use an intermediary to fulfil its obligations. The Provider is fully liable for the unlawful conduct of such intermediary, as if the unlawful conduct is committed thereby.

The invalidity, illegality or unenforceability of any part of the present GTC shall not affect the validity, legality or enforceability of the remaining parts. If the Provider does not exercise its rights under the present GTC, the failure to exercise such rights shall not be deemed a waiver of such rights. Any waiver of any right is valid only upon an expressly written declaration thereof. The fact that the Provider does not strictly adhere to a material term or condition of the GTC on one occasion does not mean that the Provider waives its right to insist on strict adherence to that term or condition in the future.

The Provider shall be entitled to modify the conditions of this GTC any time unilaterally.

Entry into force: Pécs, 20 April 2023
